Apollo
2-in-1Vet Laser Therapy and Surgery Device

Features

- Deep healing can be achieved using touch therapy
- Reduce surface scattering and reflection
- Laser treatment combined with manual massage
- Enables treatment of deep tissue injuries
- Shortens treatment time and reduces pain symptoms

Application

TTOL-D5
Surgical Lamp Mobile Version

Features

- Illuminance: $\geq 40,000\sim 180,000\text{Lux}$ (Adjustable)
- LED Quantity: 6l pcs
- Service Life: > 80,000h
- Colortemperature: 3700~5000K(Adjustable)
- Size of light field: 160~280mm

Optional Lamp Model

DTS-280
Veterinary Dental Workstation

Features

- X-ray shooting
- Integrates cleaning, grinding, polishing, cutting
- Mounting bracket and arms for dental DR
- All-in-one monitor with touch screen
- Vet dental imaging software

DRT-40Vet
Vet Digital Radiography Imaging System

Features

- X-Tube CANON Rotating Anode Tube
- X-Tube Focus spot: 1.0/2.0mm
- X-Tube Max voltage: 125kV
- High Voltage Generator: 120/220V 32kW 400mA
- Flat Panel Detector: a-SiTFI CsI Sensor

DD-75T
Veterinary Electrosurgical Generator

Features	
- Only 3.5kg Light and Compact	
- Power supply Voltage: 110/220VAC	
- Maximum Output Power:75W	
- Working Frequency: 600kHz (for cutting), 300kHz (for coagulation)	
- Ambient Temperature: 5~40°C	

Back View

KV-W100
Animal Infusion Pump

Features	
Application	Vet Clinic
Function	Vet Emergncy Care
Feature	Reusable
Usage	Medical Products
Keywords	Medical Vet Infusion Pump

Application

KV-WSPA112
Vet Syringe Pump

Features	
Screen	3.5 inch LCD screen for clear vision
Syringe Size	5/10/20/30/50/60ml
Material	Plastic & metal
Infusion Mode	Rate, rate time, rate-VTBI, time-VTBI, Body weight
Drug Library	20 drug list with drug code display

UC-1801
Pet Incubator

Features	
- illumination Function	
- Carbon Dioxide Concentration Monitoring	
- System Accurate Temperature Control	
- Sterilization Function	
- Negative-ion Generation	

TA100V
Veterinary Anesthesia Machine

Features	
- Suitable for anesthesia of cats/dogs/monkeys/pigs and other animals under 100KG	
- Operation Mode: Semi-closed,open breathing circuit for option	
- Flow Range: 0-4L/min	
- APL: 0.2-7.0Kpa	
- O2 Flush: 25-75L/min high oxygen flow	

Optional Model 60V/80V

KV-W600V
Veterinary Anesthesia

Features	
Material	Metal Plastic Steel
Tidal volume(Manual Mode)	10~2000ml
Gas pressure	0.25~0.65Mpa
APL Valve	0.5~6.0Kpa
OXYGEN Flush	25~75L/min

Application

KV-04IAZ
Veterinary Anesthesia Laryngoscope

Features	
- The laryngoscope lens is made of 304 medical stainless steel	
- Lighter blades make the doctor's operation easier	
- Super hardness makes the blade more durable	
- Can be sterilized at 134 degrees Celsius.	
- Advanced design, beautiful appearance, smooth surface is easy to clean.	

Application

APNEA
VET Apnea Sensor

Features	
- Compact &light weight	
- Easy to Use	
- Sensitive to Apnea	
- To Turn on Automatically	
- To Turn off Automatically	

Application

KV-811
STAINLESS STEEL GROOMING TABLE (S)

Features

- Classical folding table with non-slip rubber surface.
- Stable and durable stainless steel legs.
- Dual functional grooming arm.
- 30"L×19"W×32"H
- 75cmL×47cmW×82cmH

Optional Color

KV-TH1
Anesthesia Ventilator

Features

Respiration Mode	IPPV, Manual
Tidal Volume	50ml ~ 1600ml
Breath Frequency	1~90BPM
Driven Model	Pneumatically Driven and Electrically Controlled
Display	High light LED display

KV-BR6200
Veterinary Monitor

Features

- One key operation
- Portable and light weight
- APP for Android and IOS
- Easy to operate with type-c connector
- Rechargeable battery and wireless charging
- Multi-function for SpO2, HR, Temp, ECG, RR and NIBP

Accessories

SpO2 Sensor

ECG & Temp Cable

Type-C Charging Cable

Reusable NIBP Cuff

ECG Electrode Clip

Disposable NIBP Cuff

IE-12V
Multi-parameter Veterinary Monitor

Features

- 12.1inch HD Touch Screen
- Interference protection
- Manual, Automatic and Continuous modes
- Standard Parameters: SpO2,NIBP,ECG,PR,TEMP,RESP
- Optional Parameters: 2-BP/EtCO2/IoC/Thermal printer /VGAoutput

Accessories

Blood pressure extension tubing

ECG leadwire

Oximetry Probes

Oxygen Extension Cord

Body temperature sensors

Animal Cuffs

IE-8V

Bedside/Cagemount Monitor

Features

- Portable handle and compact design, use for bedside, cagemount, desktop or wherever for clinical needs.
- 8.4" HD touch screen
- Built-in rechargeable battery for up to 5 hours working
- Six Standard parameters: ECG, RESP, NIBP, SPO2,TEMP,PR/HR
- Optional Mainstream/Sidestream EtCO2

Accessories

Capnometry

Veterinary Mainstream EtCO2 Monitor

Features

- Small and Portable
- DataTransmission
- OLED Display of waveform and digits
- High Waterproof Grade
- One-key Easy Operation

Optional Color

EZ Breath Sure

LED Apnea Monitor

Features

- Apnea Monitor with Visible Display
- Large-capacity battery, long working time for 40 hours
- Built-in Lithium battery, Type-Cinterface charging
- LED digital displays respiratory rate and alarm
- Available to measure respiratoryrate, Apnea alarm, Exceed-limit alarm

Optional Color

KV-X100

Urine Analyzer

Features

- Ergonomic design for point of care
- Suitable from big to small animal
- High resolution 3.5." color LCD display
- Selectable working modes: spot check and continuous monitoring
- Classic SpO2/TEMP/NIBP measurement availble

Accessories

KV-A3
ECG Machine

Features

Protection against defibrillator effect	
Input Circuit	Floating
Type	Portable 12 leads ecg touch screen ECG
Voltage Tolerance	500mV
Operation Mode	Manual/Auto

EP60V
Veterinary Color Ultrasound System

Features

- 14inch HD LCD screen
- Multi-angle adjustable for screen wide viewer
- Standard 2 probe slots, 3 slots for optional
- Internal lithium battery
- Satisfy movement scene of diagnosis

KV-WUB-W1
Portable Veterinary Ultrasound Scanner

Features

- 2D image 5.6 inch LED HD display
- Various of pseudo color display
- Winter mode: one key to start the winter mode
- HD video playback and image storage function
- Large capacity lithium-ion battery (more than 6 hours)

Accessories

KV-1600B
Color Doppler Ultrasound
Diagnostic System

Features

- Charging mode: wireless
- The effective transmission distance of WiFi connection is not less than 10 m)
- Image flip function
- 8-segment TGC adjustment
- Storage function of DICOM file

Application

BC-401
Urine Analyzer

Features	
- Testing Items:	GLU, BIL, SG, KET, BLD, PRO, URO, NIT, LEU, VC, PH
- Testing Theory:	RGB tricolor
- Repetition:	CV < 1%
- Stability:	CV < 1%
- Display:	2.4" color LCD

Optional Model

300G VET
3 Channel Electrocardiograph

Features	
- 3.5 inch TFT Screen	
- Specific animal software	
- Unique animal ECG accessories for different species	
- Printing paper:	80mm*20M
- Dimension:	L315*W215*H77mm

Application

KV-HFC
Fundus Camera

Features	
Screen	3.5" full color LCD
Field of View	40°
Minimum Pupil	2.5mm
Refractive Compensation	-20D~+20D
Resolution	Full HD true 1920 1080

KV-BL50
Veterinary Slit Lamp

Features	
Eyepiece	10X and 16X
Objective Lens	1X
Diopter Adjustment	±5D
Visual Field	10mm
Working Distance (WD)	78 mm

Optional Model

KV-2015
Dual Tube Stethoscope

Features

- Designed for auscultation in general veterinary practise
- Dual tubing, Dual head, Soft eartips
- Total lenght: 74.5 cm, Large diaphragm: 40 mm, Small diaphragm: 26 mm
- Zinc alloy chestpiece and aluminium binaural
- Acoustic sensitive

Optional Model

Small Diaphragm: 35mm

KV-2025
Cardiology Stethoscope

Features

- Designed to improve auscultation in the low frequency area giving a better evaluation of heart sounds
- Acoustic sensitive
- Dual head, Soft eartips
- Total lenght: 72.5 cm, Large diaphragm: 44 mm
- Stainless steel chestpiece and aluminium binaural

Optional Model

Small Diaphragm: 30mm

KV-T310B
ENT Diagnostic Unit

Features

- 3X Magnification
- Direct illumination
- LED White/LED Sunlight
- Compatible with disposable ear speculums
- Larger viewing window/Pneumatic Testing

Application

KV- BR1000A-I
Veterinary Oximeter

Features

- Light weight, easy-to-use
- Pulse rate value, SpO2 value display
- Perfusion index, pulse rate waveform
- Lower consumption and low voltage reminder
- Real-time data transmission to PC and phone, real time storage in app

Application

KV-KTS60D-VET
Animal Oximeter

Features

- Display of PR value,pulse waveform and bar graph
- Adjustable screen brightness, PR sound indication
- Review function.Clock function
- Audible prompt for over-limit and low battery
- Battery status indication
- Low battery indication

Application

KV-P10
Pet intelligent Electronic
Blood Pressure Meter

Features

- Number of memory groups 90 groups of two-zone memory
- Dimensinos 126 (length) * 120 (width)* 160 (height) mm
- Screen size 81*101mm
- Machine weight about 435 grams (excluding dry batteries and stabilized power supply)
- Operation mode Continuous operation
- Maximum saturation sound pressure level 129±3dB

Accessories

KDV-03
Vet Digital Rigid Thermometer

Features

- Material Metal, Plastic
- Measurement Accuracy 32.00°C~42.99°C(90.00°F~109.90°F)
- Testing time 16 Second
- Accuracy ±0.1°C 35.00°C~39.00°C
- Battery Type 2×AAA

Rapid Measurement Model

KV-BGM01
Pet Blood Glucose Meter Kit

Features

- Fresh whole blood (capillary, venousarterial) can be used for testing for veterinary clinics
- Test time: 5 seconds
- Measurement range: 10 to 600 mg/dL(0.6~33.3 mmol/L)
- Sample Volume: 0.5uL
- Memory: Up to 300 records with date and time

Accessories

KV-IR206
Pet Non-contact Infrared Thermometer

Features

- Simple Hygienic Temperature Reading
 - Calibrated For Dog's Body Temp
 - Ultra Fast and Accurate
 - High definition LCD display screen
- | | |
|-------------------|--------------------------------|
| Measurement range | 89.6°F~109.2°F (32.0°C~42.9°C) |
|-------------------|--------------------------------|

Temperature Alarms

KDV-05
Vet Digital Flexible Thermometer

Features

- | | |
|---------------|----------------------------|
| Color | Green White/Blue/Customize |
| Accuracy | ±0.1°C |
| Usage | Zoos, livestock farms |
| Measure Range | 32°C~42.9°C/ 89.6~109.22°F |
| Battery | Button battery |

Application

KD-203AY-4
Headlight with Magnifier

Features

- Light source: 3WLED
- Color temperature: 4000~5000K
- Bulb life: ≥50000h
- Illumination: ≥12000Lux
- DC charging time: <5h

KV-300
Woods Lamp

Features

- UV phototherapy device good assistant, easy to detect skin conditions
- High brightness, observe normally in daytime, and the effect is better in dark environment
- No need preheating, observe and use at any time
- Hand-held operation, flexible observation position
- Small and convenient to carry, observe and monitor the recovery of pigment and skin damage at any time

Optional Model (without filter)

KV-WHP600
Hyperbaric Oxygen Chamber

Features	
Power	1210W
Air Flow	65-72L/Minute
O2 Flow	0-10L/min adjustable
O2 Purity	≥93%
O2 Outlet Pressure	0.05mPa

KVL-01
Portable Vet Laser Treatment Device

Features	
- Therapy Applications: PainRelief Cure Knee Arthritis Rheumatoid	
- Arthritis and Athletics System Injuries	
- Soft Tissue Injuries and Sports Injuries & Sprain	
- Wound & Ulcer Acupuncture and Diminish Inflammation	

Optional Color

Airway-Sure
ET Cuff Pressure Manometer Airway-Sure

Features	
- Safe: Real-time detection of the cuff pressure during the whole intubationprocess	
- User-friendly: Easily measure the cuff pressure of cuffed airways without operation	
- Intuitive: Digital pressure readout marked in different colors	
- Reliable: The optimal cuff pressure between 20 and 30 cmH2O is suggestedby the clinical evidence(+/-2 cmH2O accuracy)	
- Convenient: Pocket-sized, light-weight,and can stay at the patient's bedside	

Accessories

TA-ETTSC17S
Endotracheal Tube with or w/o Cuff

Features	
- Endotracheal Tube with Cuff/ without Cuff	
- Material: PVC	
- Anesthesia and breathing circuits: inner diameter 2.0/2.5/3.0/ 3.5/4.0/4.5/5.0/5.5/6.0/6.5/7.0/7.5/8.0/8.5/9.0/9.5/10.0/10.5/ 11/12/13mm	

Application

TYPE : CUFFED
I.D. : 9.0mm
O.D. : 12.0mm
Cuff : 29mm

TTCat1
Cats Tracheal Tube

Features

- Avoid the problems caused by ET tubes such as laryngeal and tracheal trauma
- Suitable for small kittens to adult large domestic breeds
- No laryngeal damage/spasms
- No tracheal trauma
- Protects airway from reflux/regurg material

Optional Model

TA-VADGC8G
Disposable Gas Filter Canister

Features

- With PP material, safe and non-toxic
- Built-in filter sponge, offer good sealing and strong filterability
- Better prevent the anesthetic contamination of the operating room to the veterinarian
- 250g and 800g for options(weight of active component)
- Design to absorb anesthesia waste gas such as ISO, HAL, ENF, etc

KV-P03
Pet First Aid Kit

Features

- The content can be customized

Qty/ctn	100 sets
Ctn/size	50*50*28cm
Gw	14kg
Nw	13kg

Contents	Size	
PE Band-Aid	72*19mm	5Pcs
Adhesive Wound Dressing	6*7cm	1Pc
Small Scissors	9cm	1Pc
Non-Woven Tape	1.25cm*4m	1Pc
Bandage Triangulaire	96*96*136cm	1Pc
PBT Bandage	5cm*4.5m	1Pc
Cotton Swabs	8cm	10Pcs
Plastic Tweezers	10.5cm	1Pc
Self-Adhering Bandage	2.5cm*4.5m	1Pc
Pet Tweezers		1Pc
Eye Wash	15ml	2Pcs
First Aid Kit	14 *11*5cm	1Pc

KV-37
Mosquito Mask For Horses

Features

- Material: polyester + nylon fiber
- Product color: black, gray, purple
- Protect your horse from mosquitoes and flies
- Does not affect the sight and eating horse material
- Two ways to wear

Application

KV-17
Pet knee straps

Features	
- Eco-friendly material	
- Contains infrared heat to keep warm	
- Equipped with velcro for maximum adjustability	
- Two strands are easily adjustable	
- Stretchy, snug fit	

Application

KV-29
Knee Strap Walker

Features	
- Assistive support for dogs with leg injuries, fractures, patella dislocations, and surgeries	
- Relieves pain due to injury or surgery	
- Provides support and stabilization during injury	
- Prevents pets from licking leg wounds	
- Helps with loss of stability caused by arthritis	

Application

Veterinary Diagnostic Kit

Features	
High Sensitivity And High Specificity	
Rich variety of pet rapid test	
Fast results. Result are ready within 10 minutes.	
Easy to use. Simple procedure with few steps.	
Little or no special equipment required.	

KV-WNKS
Visual Artificial Insemination Gun

Features	
Endoscope Probe	44cm
Input	100-240V AC 50/60HZ 0.15A
Output	5V DC 1000mA
Charging	Built-in battery, USB charging
Continuous Working Time	2h

KV-WKS
Vet Insemination Gun

Features	
Display Size	377mm*247mm
Pixel	5 million, Air passage: 2mm
Handle	Total Length 490mm
Observation Channel	2mm
One-time Vas Deferens	66cm

KV-02
Pet Medicine Feeder

Features	
- Product material: edible silicone + environmental protection plastic material	
- Product color: red, blue, green	
- Product specification: 15*16cm	
- Supplied with open and non-open hose	
- Syringe is made of ABS material Transparent	

Application

KV-10
Anim Spacer

Features	
Specification	175ml With inhalation one way valve & exhalation valve
Spacer Height	141mm±1mm
Spacer Body Diameter	46mm±1mm
Spacer Weight	46g±1g

Application

TA-VAMS6
Veterinary Anesthesia Mask

Features	
- Applicable to all respiratory anesthesia machines	
- Unique adapter: animal anesthesia first aid oxygen inhalation atomization	
- Application: dogs, cats, pigs, rabbits, birds, mice, rats and other animals	
- International standard interface 15mm/22mm	

Storage Sets

TA-VAOS5
Veterinary Oxygen Mask

Features

- Used with most oxygen equipment
- Used with an oxygen compressor
- Used with oxygen transport and rescue systems
- A venting prevents CO₂ from building up in the mask
- Multiple sizes to choose

Storage Sets

TA-BS5L
Breathing Bag

Features

- Capacity: 23L/18L/16L/12L
- Chamber Size(mm): 23L 245X150mm 18L 245X350mm
- No pungent smell. Softhandle, smooth touching
- 22mm standard connector
- With netand smooth surface, no pinholes and dirt

TTDC-09IT
Veterinary Infrared Therapy Cage

Features

- Each chamber is equipped with an infrared physiotherapy lamp
- Has good healing effect on wound healing
- Dimensions(L x W x H): 1500*700*1860mm
- Upper cage(L x W x H): 500*700*610mm
- Lower cage(L x W x H): 1500*700*820mm

TTICU-4V
Animal Intensive Care Unit

Features

- With 4 Controllers
- Dimensions(LxWxH): 1400*890*1910mm
- Upper cage (LxWxH): 700*890*800mm
- Lower cage(LxWxH): 1400*890*1000mm
- 4 chambers combination

HPP30
Far Infrared Ray Pet Heating Pad

Features

- Temperature range 25-45 degrees, PVC flame retardant and waterproof material.
- Timing 6 gears temperature adjustment
- Anti-bite material is safe for naughty pets
- Low temperature soft heat
- 5MM unique insulation layer to prevent heat loss downward

M500V
Warming System

Features

- Help to maintain pets temperature before, during and after surgery
- Reduce pre-operative period danger
- 5 Levels of temperature (Ambient, 34°C, 37°C, 40°C and 43°C)
- Accurate air temperature delivery with hose-end temperature sensing
- Quiet operation

Accessories

M600V
Warming System

Features

- Perioperative Temperature Management Safe & Powerful & Simple
- 5 Adjustable Temperature: 32°C, 35°C, 38°C, 41°C, Ambient air
- Airflow Modes: High: ≥230CFM, Middle: ≥28CFM, LOW: ≥26CFM
- Interface: OLED Display
- Noise: ≤52dB (High fan setting)

Optional Trolley

KV-C4
Pet Hair Dryer

Features

- Wind speed adjustable, high and low temperature adjustable
- | | |
|-------------|----------------------------|
| Power | 2000W - 3200W |
| Voltage | 110V-127V or 220V-240V |
| Wind speed | 30M/S ~ 90M/S (adjustable) |
| Temperature | 30°C - 70°C (adjustable) |

Optional Color

KV-7628B
Vet Scale

Features	
Size	510*1120mm
Accuracy Class	III
Display	6-digit 20mm LCD with backlight
Work Environment	-10℃~+40℃ ≤ 85%RH
Power Supply	3*AA batteries or DC6V adapter

Optional Model

PET Self-adhesive Bandage

Features	
Material	95% nonwoven + 5% spandex
Glue	Natural latex
Elasticity	180%-210%
Color	Pure color

Application

KV-43
Equestrian Leggings

Features	
- Effectively protects the ball joints against ligament strain during strenuous exercise.	
- Thickened fleece	
- Easy to put on and off	
- Fluffy and elastic	
- Easy to use	
- Length 250cm Width 12cm	

Application

KV-28
Pet Bedsore Pad

Features	
- Suitable for families, inpatient departments of animal hospitals diagnosis and treatment tables, operating rooms, kennels	
- Memory material	
- Constant temperature and comfortable	
- Permeable and breathable	

Application

KV-06
Pet Pads

Features	
Material	Nonwoven Top Sheet; Tissue Paper;Wood Pulp+Sap; Pe Film Back Sheet With Four Stickers
Size	33*45cm/60*45cm/ 60*60cm/ 60*90cm/Customized
Color	Blue, Pink, Green or Customized
Main Products	Adult Diaper;Pants Diaper; Sanitary Napkin; Under Pad; etc

Application

KV-7021
4 in 1 Pet Grooming kit IPX7

Features	
- Whole-Body Waterproof IPX7	
- Stainless blade & ceramic blade	
- Rechargeable Ni-MH battery 2.4V 600mAh*2	
- Working time: around 1 hour	
- Charging time: around 5 hours	

Optional Heads

KV-32-1
Pet Hind Limb Assist Belt

Features	
- Designed for disabled dogs, middle-aged and elderly dogs.	
- Rehabilitation training, stairs assistance	
- Various ways to use	
- Meet the needs of different environments	
- Easy to wear	

Application

KV-S101
Pet Hind Leg Support Belt

Features	
- Suitable for backlash, postoperative recovery	
- Breathable and comfortable, the pet will not be stuffy and hot to wear for a long time	
- Reserved grooves will not affect your pet's urine	
- Double fixed with velcro and buckle, will not fall off easily	

Application
